PROFILE

- To begin my career in a forward-thinking organization where I can apply my technical skills, adapt to new technologies, and contribute to organizational growth. Committed to continuous learning and delivering efficient, high-quality solutions

WORK EXPERIENCE

Sri Durga Electronics & Furnitures JAN 2022 - DEC 2024

- Managed billing, invoicing, and financial transactions while maintaining accounts and inventory using Tally.
- Handled GST filing, compliance, and maintained accurate financial and sales records.
- Assisted customers with purchases and supported sales activities including promotional outreach.

WORKSHOP

- Poornaprajna Institute of Management, Udupi
- Completed hands-on training in front-end technologies (HTML, CSS, JavaScript, React) and MySQL
- Developed a single-page application with interactive UI and gained practical experience in React components

PROJECTS

Movie Ticket Booking System

- Developed a dynamic web-based movie ticket booking system using PHP and MySQL. Implemented features such as user authentication, movie listings, seat selection, and secure booking confirmation to enhance user experience.

Blood Donation Application

- Designed and developed an Android application using Java and XML in Android Studio to connect blood donors with recipients. Included functionalities like donor registration, search, and direct contact to improve accessibility during emergencies.

House Rental Management System

- Built a responsive web application using React, Supabase, and EmailJS for managing rental properties. Implemented features such as property listings, tenant management, authentication, and a user-friendly interface for seamless interaction.

Furniture Catalog Website

- Developed a modern web-based furniture catalog using React and Supabase. Enabled display of furniture items with unique IDs, along with sharing functionality and an intuitive UI for easy browsing and product exploration.
